

Post LANAP® Treatment: Dietary Instructions

Day 1-3

Following Laser Therapy, follow only a liquid-like diet to allow healing. Anything that could be put into a blender to drink is ideal. The purpose of this is to protect the clot that is acting as a “band-aid” between the gums and the teeth. Do not drink through a straw, as this creates a vacuum in your mouth that can disturb the “band-aid”. No chewing during this period of time! Take daily vitamins.

Day 4-7

Foods with a “mushy” consistency such as those listed below are recommended (see below).

Day 8-30

Soft foods may be allowable. The time to start on soft foods is dependent upon the loss of the white material that appeared around your teeth following LANAP® treatment. You were introduced to this material by your doctor or doctor’s assistant during your follow-up visit immediately following your initial treatment session. It was explained to you that you must leave this material alone until it naturally heals and disappears. Once the white material has disappeared, then soft foods can be introduced. Soft foods have the consistency of pasta, fish, chicken or steamed vegetables. You may then (gradually) add back your regular diet choices.

“Mushy” Diet Suggestions

DAILY VITAMINS!

Anything put through a food blender

Cream of wheat, Oatmeal, Malt O Meal

Mashed Avocado, Applesauce

Mashed Potatoes or Baked Potatoes – OK with butter/sour cream

Mashed Banana or any mashed/blended fruit, except berries with seeds

Broth or Creamed Soup

Mashed steamed vegetables

Mashed Yams, Baked Sweet Potato or Butternut Squash

Cottage Cheese Cream or Soft Cheese

Creamy peanut butter without solid pieces

Eggs any style, with or without melted cheese

Omelets can have cheese and avocado

Jell-O, Pudding, Ice Cream, Yogurt

Milk shake/smoothies – DO NOT blend with berries containing seeds

Ensure, Slim Fast -nutritional drinks

DON'T

Chew gum, candy, cookies, chips, nuts, anything hard or crunchy, anything that has seeds or hard pieces, meat that shreds and can lodge under the gum and between teeth, raw vegetables and/or salad.
