

For your convenience, here is a list of many of the services that I can provide for your patients:

- **Dental Implant placement surgery**
 - Immediate implant placement after tooth extraction
 - Delayed implant placement for extended healing
 - Implant placement for overdentures and full-arch prostheses

- **Bone Grafting** for dental implant placement
 - Ridge Augmentation (Lateral and Vertical bone grafting)
 - Sinus Lift Grafting

- **3D Cone Beam CT** Scanning and Case planning, for predictability and precision

- **IV Sedation**, for maximum patient comfort

- **Extractions**, including advanced cases of impacted 3rd molars. My 3D imaging technology allows me to assess the complexity of these cases. I am well experienced in 3rd molar extractions, including full bony impacted cases.

- **Crown Lengthening**
 - Functional, to maintain biologic width for crowns
 - Aesthetic, to treat gummy smiles

- **Uncovery** of impacted teeth for orthodontic treatment (usually canines)

- **Soft Tissue Procedures**
 - Grafting for root coverage (Connective Tissue Grafts, Allografts)
 - Grafting to increase keratinized tissue (Free Gingival Grafts)
 - Soft tissue grafting around teeth or implants
 - Frenectomy
 - Biopsy

- **Treatment of Periodontal Disease**
 - LASER assisted periodontal therapy (LANAP)
 - Osseous Resective Surgery
 - Guided Tissue Regeneration
 - Peri-implantitis treatment
 - Non-surgical treatment (S/RP, antibiotics, Arrestin, etc.)
